

DIDSBURY PIONEER

VOL. XXIV

Thursday, July 21st, 1927

No. 29

Baseball.

CARSTAIRS 4; DIDSBURY 1

On Monday last a postponed game with Carstairs took place. Both sides played steady ball, with the work of the infield being especially good. Johnson took the box for the entire game and was successful in keeping the score down. The first three innings were rather slow, no score at all being made. In the fourth, Carstairs jumped ahead with two runs. Both sides now began playing better ball, but the score remained unchanged until the ninth inning. With two men on bases a Carstairs batter

placed a ball out to centre field and enabled the runners to get home. In the second half, Didsbury made an effort to better the score and gained one run, scored by Clint Reiber.

| Score | |
|-----------|---------------|
| Carstairs | 000 200 002—4 |
| Didsbury | 000 000 001—1 |

IS THERE MONEY IN FARMING?

Is a question that is often asked. Take a spin out and look over the nice new home of Mr. and Mrs. J. M. Allen and you will say there is. A pipeless furnace; clear maple floors and oriel windows—a regular city home on the

BISHOP SHERMAN VISITS DIDSBURY

On Sunday afternoon, Bishop Sherman, of Calgary, held divine service at St. Cyprian's Church. There was a large and representative congregation present. After a few brief remarks by the Rev. H. Clay concerning the history of the church during his incumbency, the Bishop gave an interesting sermon on the twenty-third Psalm. After referring to the manifest beauty of the Psalm, he pointed out three facts about which this Psalm is built. The first fact, "into the paths of righteousness," is explained thus: "When one walks 'through the green pastures' of knowledge and understanding, by the 'still waters' of comfort, unto the paths of righteousness one is treading the path to the true Christian life. The second fact, 'in the valley of the shadow,' he showed all the dangers and pitfalls that beset us all our lives. As it is not possible to escape them in our environment, we must constantly struggle against them, and yet though we may not escape all of them, by continuous efforts we can approach the higher spiritual plane to the attainment of everlasting life. The third fact: 'Surely goodness and mercy shall follow me all the days of my life' shows that if we live a Christian life our reward comes in the spiritual feeling and friendliness that we have for all our fellow-men, and we shall 'sit in the Lord's house forever.'"

WIN MANY HONORS AT CALGARY.

Following up their success of previous years, Messrs Berscht and Reeder of Didsbury were again remarkably successful at the Calgary Exhibition held last week. In the pony class, these local exhibitors registered eleven entries and received in awards eleven prizes. These were gained for best team, single drivers, saddle, etc., and comprised four firsts, four seconds, one third, one fourth, and one seventh. The whole of these were taken with five ponies.

Their appearance and style received most favorable notice and when shown approval was given in hearty applause.

prairie—and their Holstein cattle and Yorkshire pigs are a delight to the eye. The writer spent a few very pleasant days out there and would have liked to have prolonged the visit very much. Mr. Allen says it's not what money you make—it's how you spend it. The only objection is that the screen door slams at 5 a.m.

—Rev. McNutt

NOTICE OF SALE.

Notice is hereby given under section 48 of the Domestic Animals Act (Municipalities) that the following horses were impounded in the pound kept by W. J. Scheidt located on the N.W. 16-31-1-5, on the 27th day of June 1927, and that the said animals were sold on July 16th, 1927. One grey mare about 9 years old, shod on front feet, branded 'AW' on left hip, sold to Fred Imm, Didsbury Alta., and one bay gelding about 7 years old, shod on front feet, indistinct brand on right hip, sold to Irwin Klein, Didsbury and that the said animals may be redeemed by the owner or on his behalf within thirty days from the publication of this notice in the Alberta Gazette, upon the payment of all fees and costs due to the municipality and the purchasers of the said animals. For further information apply to the undersigned A. Brusso, Sec. Treas. Municipal District of Mountain View, No. 310.

The Canadian People

In rounding out the celebration of the Diamond Jubilee of Confederation, the Dominion Parliament at its next session might well take one more step to further promote a united Canadian sentiment and develop a stronger Canadian national spirit by making legislative provision for the recognition of the Canadian race, and to enact that a person born in Canada, whatever their racial descent, shall be designed in the census returns of this Dominion as a "Canadian."

At the present time, tens of thousands of native-born Canadians are made to suffer a feeling of inferiority, not only in their own eyes but before the world, through their inability to record themselves as Canadians. Under the census regulations of the past they have been forced to designate themselves as English, Irish, Scotch, French, Dutch, German, American, — anything but what they really are, Canadians.

As a result, the census statistics of this Dominion advertise to the world that this country of Canada is inhabited by all manner of races and conditions of people, except Canadians. That in all this broad Dominion, a self-governing nation in the British Commonwealth of Nations, with a status equal to that of Great Britain itself, and a full-fledged member of the League of Nations, there is no such person as a Canadian.

If in England the same antiquated and obsolete system of census enumeration prevailed, many families who have lived in England for centuries would be compelled to classify themselves as Dutch, or French, anything but English. His Gracious Majesty the King, the Prince of Wales, and other members of the Royal Family would be recorded as German. In the United States, if our absurd system existed, there would be every known race under the sun, except Americans. It is the un-understandable insistence of the Ottawa authorities in this matter which is one of the causes of people in other lands failing to understand and appreciate the national and international position of Canada today.

Furthermore, the existing state of things is most unfair to the people of Canada. There are thousands of Canadians whose parents, grandparents, great-grandparents, were born in Canada, and who do not know, and much less care, whether generations back their forebears originally hailed from the British Isles, the continent of Europe, or the Isles of the seas. They are Canadians. That is good enough for them, and it ought to be good enough for the Canadian Government.

In some cases a man's great-grandfather may have been Scotch and his great-grandmother French; their son may have married a German; the female offspring of this latter union may have married a Ukrainian born in Canada but one of whose parents was a Hungarian, who in turn had Russian blood. What is the nationality of such a Canadian-born man? He himself does not know, and it is doubtful if the average census enumerator can figure it out. The only point on which the enumerator is clear, and because the Government in its instructions to him makes it absolutely clear, is the man is not a Canadian regardless of the number of these generations of varying racial descent who were born in Canada.

"Canada our Country" was the motto of the Diamond Jubilee celebrations. "Our people Canadians" should be the record disclosed by the census returns, not a conglomerate mixture of peoples. Under the existing system of enumeration it is not at all surprising that so many false statements are being made to the effect that Canada is rapidly becoming a non-English country, and that the foreign-born predominate. If the children of three and four generations of native-born Canadians must still be classified as Russian, or German, or Austrian, anything and everything but Canadian, it is small wonder that people who do not understand our uniquely absurd system are misled and arrive at conclusions the very reverse of true.

Canada's Diamond Jubilee year is a most appropriate time for Parliament to right this injustice to so many of its citizens and to the Dominion as a whole.

To Cross Ocean In Small Boat

Steel Vessel Twelve Feet Long Will
Be Used By Daring Navigator

In a tiny, submarine-like steel vessel of his own construction, built during his spare time, William Oldham, of Warrington, Lancashire, proposes to set out shortly on an adventurous

voyage from Dover to New York. The boat, which is only 12 feet long, with a beam of 3 feet, will be propelled by a navigator with a pedal mechanism much like bicycles operating the two-bladed propeller.

A "windmill" geared to the shaft will relieve him when the wind is fair. Two persons can be accommodated, although there won't be full-length sleeping quarters. There are six water-tight compartments and four gunmetal windows. Oldham will be able to button himself down when the weather is bad and keep a lookout from a small "conning tower." He has estimated that the trip will occupy 40 days, and he is desirous of finding some one to share the hazards with him.

Insulin Capsules Made

Insulin may now be taken in capsules, according to investigators at the University at Breslau, Germany, who claim to have found a substitute for the pancreatic insulin. Heretofore the remedy for diabetes could not be given in the form of drops, powders or tablets, but must be injected under the skin. Prof. J. C. Minkowski, who conducted the method of giving insulin has been effective in a number of cases.

By a new device an approaching train completes a circuit and thus swings a crossing light into a commanding position, rings a bell and displays a danger flag.

Quick Stop for Airplanes

New Device Will Permit Planes to
Land on Roofs of Buildings

Airplanes can now be safely brought to a stop within a distance twice their own length under a reversing propeller arrangement patented by C. Francis Jenkins, noted Washington inventor.

The propeller cannot be operated until the plane lands, Jenkins explained, and when thrown in reverse halts the airplane with the ease of powerful brakes.

The inventor believes his device will permit air fields for mail and commerce to be established on the roofs of buildings, eliminating the slower and costly hauling of mail, express and passengers from suburban fields.

Sour Stomach Risings Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relieve you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergent ills, always keep trusty Nerviline on hand. 35c. at all dealers.

Mapping Canada From the Air

Since 1921 when aerial photographic surveys were begun by the Topographical Survey of the Department of the Interior, 25,639 square miles in Canada have been covered by vertical photographs and 127,740 square miles by oblique aerial photographs.

DEBILITY DUE TO INDIGESTION

Perfect Digestion Comes Through
Rich, Red Blood

There can be no perfect digestion unless you have rich, red blood. This is scientifically true. It is also true that there is no tonic for the stomach that is not a tonic for every other part of the body. The way, then, to tone up the stomach is to tone up the blood.

The many so-called stomach remedies merely try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended. There is no pleasure in eating pre-digested food. Tone up your stomach and your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin you need the help of Dr. Williams' Pink Pills to enrich the blood and restore strength. In addition use care in the selection of your food and your stomach trouble will soon pass away. Mr. Gordon Dundas, Peterboro, Ont., tells as follows what this medicine did for him. He says: "Something over a year ago I was a gasoline salesman when I was taken sick. I felt very miserable and lost twelve pounds in weight. I did not sleep well and could not eat as I could scarcely retain anything in my stomach. I went to a local doctor who told me the fumes of the gas had got into my system. He gave me some medicine and told me I had better go to the country for a change of air. I did so, but I still felt listless and groggy, and had no ambition. On the advice of a friend I decided to try Dr. Williams' Pink Pills. I had not been taking the pills long before I was beginning to rest better, and to eat fairly well. I kept on taking the pills until at the end of the seventh box I knew I did not need any more, as I had gained the weight I had lost, slept well and could eat anything. I have since had splendid health and cannot say too much in praise of Dr. Williams' Pink Pills. You can get these Pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Teacher: "For men must work and women must weep." What is the meaning of that line, Tommy?" Tommy: "It means that men have to work to get money, and then the women have to cry before the men will divide it with them."

Farmers Market Tour

An Exceptional Opportunity for Farmers of Western Canada to
Visit the Old Land

The British market must ever remain the most desirable outlet for Canadian farm products. As a result of keen competition from other countries, it is vital that the Canadian farmer should become familiar with what this market desires. As very few agriculturally trained observers from this country have had this privilege, many would welcome the opportunity of making an intimate study of marketing conditions at first hand. There has therefore been organized a "Farmers' Marketing Tour" by the Department of Agriculture of the Canadian National Railways. This tour, which will be open to any Canadian farmer, will be of some seven weeks duration, leaving Halifax January 8, next, with a full month spent in the old land, during which important marketing centres in England and Scotland, and some of the farms where famous breeds of livestock have been developed, will be visited, with a side trip to Denmark for a study of co-operative marketing in land of its birth.

The tour originated by Dr. W. J. Black, director of colonization, agriculture and natural resources, on the Canadian National Railways is being planned to provide the maximum of educational value, combined with all the pleasures of the ordinary sight-seeing tour. The study of conditions abroad by a large group of observers from the farms in Canada should have its practical results in the successful application of the knowledge gained on such a tour to the general improvement of the agricultural industry in Canada.

The tour is essentially for the Canadian farmer. Any farmer anywhere in Canada, or anyone vitally interested in agriculture and marketing problems, and in the development of wider markets for Canadian products, may join the tour, and it will also be possible for women who are interested in any phase of agriculture to go.

The cost of the tour from the time of leaving Halifax, Canada, until the return to that port will be \$500.00. This cost includes all ocean fares and meals, railway and bus fares in the old land, accommodation at good medium-class hotels, meals and ordinary costs incidental to the tour while overseas.

In addition, members of the party will pay their railway fare and cost of travel to and from the port of sailing at special rates provided, and will be required to bear passport costs, Government tax on steamship ticket, tips on board ship crossing the Atlantic, and personal expenses such as laundry, etc., and any additional expense of entertainment incurred by themselves.

Ocean accommodation is being provided by the White Star Line, Canadian Service. The party will sail on the steamship "Devonian" on Sunday, January 8th, the accommodation for the party being tourist class with run of ship. The return voyage will be made on the steamship "Albertic," sailing from Glasgow on February 19th, the accommodation for the party on this ship being tourist class. The accommodation and service on these well known steamships is excellent and the party is assured of a pleasant and comfortable voyage. Members of the party wishing to remain longer in the old land may arrange for similar accommodation on any later ship through the White Star Line offices overseas.

Further information may be secured about the Farmers' Marketing Tour by communication with W. J. Black, Director of Colonization, Agriculture and Natural Resources, Canadian National Railways in Canada.

Alberta Fur Production

Official figures show that Alberta's total fur production for the fiscal year 1925-26 was valued at \$2,122,778.00. This represents a gain of \$90,000.00 over the preceding year, and puts Alberta in third place among the provinces in the value of furs produced.

A London school started primarily to teach languages, now finds most of its pupils among American tourists who are anxious to acquire an English accent within a short time. A close second in popularity is a course in "curling" accents.

Canada's gross agricultural wealth is nearly eight billions, increasing nearly three-quarters of a billion in three years.

The way to see the virtues of a trust is to become a stockholder.

Gum-Dipping A Firestone Contribution to Economical Travel

The greatest enemy to tire life is not the chopped-up road, the broken pavement or the harsh grind of rough city streets—but heat, which is created by internal friction. Heat not only weakens the fabric, but also softens the rubber and causes blowouts and tire failures.

Firestone chemists and engineers knew that if they could find a way to eliminate this destructive heat and internal friction, the mileage-giving qualities of tires would be greatly increased. Such a method was found and called "Gum-Dipping."

The Gum-Dipping process is one of Firestone's contributions to economical travel—in insulates and impregnates every fiber of every cord with rubber, reducing internal friction and at the same time binding the cords together by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Firestone dealers everywhere—familiar with Gum-Dipping and its advantages—will gladly explain how thousands of extra miles are built into Firestone tires by this exclusive method. Take advantage of the Gum-Dipping process to lower your tire costs this year.

Russia Preparing For War

Military Sports Advocated to Awaken
Enthusiasm of Youth of Country

A campaign is on foot throughout the Soviet Union for the promotion of military preparedness in the face of recent developments, which are regarded as threats of war. The period from July 10 to July 17 was designated as "defense week," toward the success of which all efforts were directed.

Military sports are being strongly advocated as a means to awaken the enthusiasm of the youth of the country and the heads of the unions are exhorting their members to rally around "Ossosviaket," Russia's greatest voluntary martial organization. The latter is headed by Alexis Likofo and War Commissar Voroshiloff, and its members are said to number millions.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Science has gone far, but the stairs still creak under the softest pressure at 2.30 a.m.

CHOLERA, CRAMPS, PAINS IN THE STOMACH RELIEVED BY

Mrs. D. Leavitt, Back Bay, N.B., writes:—"Last summer my children were very ill with cholera and suffered severely from cramps and pains in their stomachs. I tried several remedies, but nothing seemed to do them any good. A friend of mine told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle and gave them a few doses and they soon found relief. Now I will never be without it in the summer months."

Don't Accept a Substitute
This preparation has been on the market for 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

FACE LOOKED TERRIBLE

Pimples Were Awfully
Painful. Cuticura Heals.

"A small pimple appeared on my chin and I scratched it causing more to come. The pimples were hard and sore and I used to keep scratching. They festered and were awful painful, and my face looked terrible. I was discouraged because when I went out it seemed as if everyone was looking at me."

"I began using Cuticura Soap and Ointment and in a week's time I could see they were helping me. I continued using them for a month and the pimples disappeared. I was healed." (Signed) Mrs. Harry Heffel, Borden, P. E. I., Nov. 19, 1926.

For every purpose of the toilet and bath, Cuticura Soap, Ointment and Talcum are excellent.

Sample Each Free by Mail. Address: Canadian Depot: "Sunbeam Ltd., Montreal." Price, Soap 25c. Ointment 25c. and 50c. Talcum 25c. **Cuticura Shaving Stick 25c.**

GRAND TRUNK SHAREHOLDERS WANT TEST CASE

London.—Lord Askwith, chairman of the Grand Trunk Railway, junior stock holders organization, at an extraordinary general meeting of the shareholders here after resolutions had been passed asking for the conversion of the existing £1 shares into preference shares, mentioned that a meeting of the old Grand Trunk proprietors would be held to decide on what measures to adopt in the interests of those concerned.

Lord Askwith suggested that the stock holders should provide money for the purpose of making a test case of their rights and after quoting the opinion of Sir John Simon, who has been associated with other eminent lawyers in the matter, said the committee did not feel justified in abandoning the case without taking legal proceedings.

The resolutions passed at the meeting provided for the conversion of the existing £1 shares into preference shares with priority as to capital, the increase of the capital from 10,000 shares of £1 each to £52,000 by creating 50,000 new ordinary shares of a shilling each, and also providing for changing the organization's name to that of the Grand Trunk Junior Stocks, Limited.

The Grand Trunk Junior stockholders, several years ago, became incorporated as a private limited company, whose objects were "to secure and obtain and receive compensation as an act of grace or otherwise for the former holders of first, second or third preference and ordinary stock."

Ottawa.—The Canadian Government will not take any immediate action as a result of the decision of the Grand Trunk Railway junior stockholders' organization, it was officially stated here.

"The Government will meet the legal situation when it arises in definite form," Hon. C. A. Dunning, Minister of Railways and Canals said, after reading London despatches reporting the action of the stockholders.

Rapid Transit Plans

American Railroad May Use Pullmans by Night, and Aeroplanes by Day
Washington.—The statement of William P. MacCracken, Jr., assistant secretary of the department of commerce for aviation, made at Cedar Point, Ohio, that five railroads are planning to use aeroplanes to supplement their service caused much comment here. The Government will encourage the carriers in this program.

Railroad managers have in mind a part rail and part air trip from New York to the Pacific coast. It was pointed out it would soon be possible for a person to travel by train from New York to Chicago by night, take a plane from Chicago to Salt Lake City by day, and shorten the time to the coast materially. This is only one of the long jumps that can be made Pullman by night and aeroplane by day. This sort of combination transportation, it is believed will become popular within a few years.

Floods in China

Shanghai.—More than 1,000 persons are reported to have been drowned and tens of thousands of people rendered homeless by floods in South Anhwei province, according to belated reports received here. The floods are reported to have taken place July 6.

Apply For License

Winnipeg.—Application has been made at the provincial secretary's office for a license to allow the Sheritt Gordon Mining Company, a \$6,000,000 mining company of Ontario, to operate in Manitoba.

Release Madame Borodin

London.—Madame Borodin, the wife of Michael Borodin, advisor to the Hankow Government, who has been under arrest at Peking, has been released, according to the Daily Mail's Peking correspondent.

W. N. U. 1690

Hog Grading Regulations

Owing to Criticisms New Ruling Will Not Be Enforced at Present

Ottawa, Ont.—As a result of criticisms received by the department of agriculture in connection with the new hog grading regulations, it has been decided not to put them into effect July 15. It is probable that some change in the wording will be made and that the new draft will not be put into effect until August 1 or later.

In addition to the need of changes in the regulations, there are administrative difficulties in the way. It is understood that some of the parties, whose co-operation is essential if the grade of hogs is to be carried back to producers, are not now willing to assist in the scheme, several conferences will have to take place before the problem will be solved.

Meantime the whole situation will be discussed at a meeting of the swine committee, to be held in Regina on July 19. The federal department will be represented by L. C. McQuat, of the livestock branch.

President of Alberta Law Society Dead

Dr. Conybeare Was One of Leading Lawyers in Province

Lethbridge, Alta.—Dr. C. F. Conybeare K.C., dean of the Lethbridge bar, died suddenly at his home, July 13. Heart failure was the cause. Dr. Conybeare who was 67 years of age, was born at Little Sutton, England, and came to Lethbridge in 1886 from Winnipeg. He had been Crown prosecutor here during the whole of his career in Lethbridge.

He was president of the Alberta Law Society, succeeding the late James Muir. Dr. Conybeare, besides being one of the leading lawyers in the province, was a leader in the Knights of Pythias and had been grand lodge officer for many years. He was also a poet and writer of some note, being especially well versed on Isdian lore.

Editors Will Visit Prince

British Newspaper Men Going to Ranch at High River

Ottawa.—The party of British newspaper men and their wives that will arrive in Quebec on August 12 will pay a visit to the Prince of Wales ranch at High River, Alta., on August 24, according to word received here. It is expected that the Prince and his brother Prince George will be at the ranch at that time and that they will personally receive the visitors. The party will be the most distinguished newspaper group that has visited Canada since the Imperial Press Conference in 1920.

Sales Show Increase

Life Insurance Business in Canada Reaches High Record

Montreal.—Eighteen per cent. more ordinary life insurance was purchased in Canada during the month of May than in May, 1926, according to the Life Insurance Sales Research Bureau. During the month \$41,553,000 of new business was paid for by companies having in force 84 per cent. of the total outstanding business in Canada. This is the highest record ever made in any month with the exception of December, 1926, and May sales are only \$2,813,000 below the December record.

Put Ban on Sun Dance

Paynton.—The Indians began their sun dance a week ago on Poundmaker's Reserve nine miles south of Paynton. For several days Indians from the north had been coming in large numbers to take part or be spectators. Tuesday a R.C.M.P. officer from Battleford arrived and stopped the dance, which is forbidden by the Dominion Government. Four of the leading Indians were taken to Battleford and were later released.

Recount Elects Conservative

Winnipeg.—Dr. E. J. Rutledge, Conservative, was declared officially elected to the Manitoba Legislature following completion of a recount in the constituency of Minnedosa where he was credited with a majority of three votes over his Liberal and Progressive opponents on election night. The final figures gave Dr. Rutledge a margin of 14 votes.

STUDENTS FROM OLD COUNTRY AS HARVESTERS

Montreal.—Canadian Pacific steamship arrivals over the week-end—the Montrose, the Melita, and Empress of Scotland—brought over 1,200 newcomers to be added to Canadian population. Practically the entire week-end's immigration quota will be absorbed by agriculture or domestic service.

A party of 50 students recruited from various universities and agricultural colleges in the British Isles is coming to aid in the gathering of the Western Canadian harvest. These first arrivals will proceed direct to Toronto, where they will be placed by the Ontario Government on provincial farms for a month's work. At the end of this period they will travel west to be absorbed in harvest work in Saskatchewan through the agency of the British Immigration League. This party constitutes only the vanguard of the student army to attack the western Canadian wheat crop. Up to three thousand students are expected.

Given Control Of Indian Reserve Roads

British Columbia and Federal Governments Reach Agreement

Victoria.—By an agreement between the British Columbia Government and the Federal Government, roads, through Indian Reserves in this province will be owned by the Province. At present they are held by the Federal Government for its wards, the Indians.

The arrangement will be ratified formally shortly following negotiations between Hon. W. H. Sutherland, minister of public works, and the Federal authorities.

Insect Plague in B.C.

Grasshoppers Threaten Serious Loss to Agriculturists

Victoria, B.C.—Tons of poison bait are being sent out by the department of agriculture to combat threatened serious losses in agricultural areas of British Columbia from insects. Retarded in their natural progress by rains, grasshoppers are beginning to hatch out in millions while the clover root borer has appeared in the North Okanagan district, apparently from the State of Washington, where the insect makes clover-growing in some districts impossible.

Divers Locate Valuable Cargo

Genoa, Italy.—Divers have succeeded in locating the steamer Washington, which was sunk in October, 1917, by a German submarine while on the way from America to Genoa. They found the vessel at Camogli not far from Genoa. The Washington had a cargo of copper worth \$60,000,000, which it is hoped to recover.

Lunch Swimming-Pool Style

There's nothing like a bite to eat after a swim. At least that is what these young ladies maintain and from the general consensus of opinion they aren't far wrong.

The photograph was taken recently at the Chateau Lake Louise swimming pool and not the least of its attractive features are the two young ladies who decided that the invigorating water of the pool was too much for their appetites. The waiter admitted that serving lunch swimming-

Will Execute Wife Of Naval Commander

Aided Husband in Espionage for Britain Is Soviet Charge

Moscow, Soviet Russia.—Mme. Klepikoff has been sentenced to death by a court martial at Kronstadt, on the charge of aiding her husband, Commander Klepikoff, in espionage for Great Britain. Klepikoff, who formerly commanded a ship in the Baltic fleet, was executed by a firing squad recently after being found guilty of espionage. He was alleged to have confessed to giving a report to a British intelligence agent in Finland containing information on the condition of the Soviet armed forces, particularly the navy.

At the same time Mme. Klepikoff was sentenced to three years imprisonment for complicity, but the supreme court failed to confirm the sentence. She was then brought to trial before a court martial.

Succumbs To Injuries

Cecil K. Parrish Dies as a Result of Automobile Accident

Winnipeg.—Succumbing to injuries received in an automobile accident on the Beach road Saturday, Cecil K. Parrish died at St. Boniface hospital on Tuesday evening.

The late Mr. Parrish was well known among the younger business men of Winnipeg, and for more than twenty years has been in the employ of the Toronto Type Foundry Co., Ltd., as accountant. He was a member of the Traffic club, but it was in bowling circles that he was most widely known, and had served on the executive of the Winnipeg Bowling Association every year since its inception. Of a retiring disposition he never sought to push himself forward, but was always unflinching with his time in the furtherance of anything in which he was interested.

Ontario Wheat Pool

Eastern Provinces Has Affiliated With Western Organization

Toronto.—For the purpose of marketing its product, the newly formed Ontario Wheat Pool has affiliated with the similar organizations in the three western provinces and, it is expected, will soon have representation on what is known as the Central Selling Board for the western pools. Members of this board have arrived in Toronto to complete arrangements. The members of the board will stay in the city until final details of the affiliation have been completed.

Earthquake in Palestine

London.—The Daily Mail's Haifa (Syria) correspondent says that 500 persons were killed in the earthquake in Palestine and Trans-Jordan and that more than 700 houses in Jerusalem and the surrounding districts were damaged. These include the Greek convent and the Patriarch's residence on the Mount of Olives. A minaret fell while a sheik was reciting prayers, killing him.

VISITOR URGES EXTENDED TRADE WITH AUSTRALIA

Winnipeg.—"Though the products of Australia and Canada are similar, there are many opportunities for trade between the two countries," said Sir George Fairbairn, agent general for Victoria in London, England, who arrived in Winnipeg over Canadian Pacific lines. Sir George, who is accompanied by Lady Fairbairn, is en route to his home in Melbourne, and will spend several days at Lake Louise and at Vancouver, before sailing on the Aorangi, July 27.

"Wool and lumber are the two great exchanges we can make commercially," continued Sir George, "though dried fruits are fast becoming a source of revenue. The government has established returned soldiers on fruit farms in the great irrigated district of Victoria and New South Wales, and they are successfully growing sultanas, prunes and other fruits, which, dried, are finding a large market."

"Much of the land which formerly was used for sheep farming has been bought back by the government and sold to settlers with the idea of growing wheat, the Commonwealth now equalling about one-third of Canada's production. Irrigation is doing its part in agriculture; within the next three years, we expect to put into operation what will be the third largest reservoir in the world. Fed from the Murray River, this reservoir will have 8,000 miles of channels, covering 2,000,000 acre feet. This means that a depth of 12 inches can be poured over 2,000,000 acres. The cost of the work will be in the vicinity of \$15,000,000," Sir George said.

Lady Fairbairn has made many trips across Canada going back and forth to school in England.

Wild Animal Invasion

Cougars and Bears Reported Plentiful in Vancouver District

Vancouver.—The latest report in what seems to be a wild animal invasion of Vancouver and vicinity was that a woman had seen a cougar in Stanley Park here. She was confident that it was not a dog or any large tame animal. Officials doubt that a cougar would be in the park but are combing the woods. A cougar was found in the park some years ago.

Pitt Lake, some miles from the city, reports that two loggers were chased up a tree by bears. The animals were so numerous and bold around the camps in the district that they have broken into pantries and taken food, scarcity of berries in the wilds being given as the reason for the influx. A number of bears weighing from 100 to 500 pounds have been shot. Similar reports have been received from other localities. At Seymour the bruins have shown a taste for bacon, mutton and cheese. A number of goats have been killed. A bear was seen on the Burnaby Lake Interurban line near here, while three skunks were killed on the same line, necessitating fumigation of the Interurban.

French Armed Sloop at Montreal

Montreal.—The Ville D'ys an armoured sloop belonging to the French government, her ensign at the "dip" in response to the same courtesy from steamships lying in the harbor, steamed slowly into Montreal recently. She is under the command of Captain Emile Antoine, of the French navy, who paid a visit to the French consul immediately on arrival. The ship will remain here for a week, and will later proceed to Quebec.

Will be Guest of Honor

Toronto.—Lord Hewart of Bury, chief justice of England, will address the Canadian Bar Association annual meeting here this month and be a guest of honor at the dinner on August 23 to be given by the Law Society of Upper Canada to the council of the Canadian Bar Association and its distinguished visitors.

Queen Victoria's toys were recently put on exhibition at the State Apartments of Kensington Palace.

LOCAL AND GENERAL

DIDSBURY REDUCES ITS TAXATION.

The necessity of an increase in taxation is seldom acknowledged by the average tax-payer, whilst a reduction is only a confession of a high rate. That is the view of many. When, however, one delves into past records and thus ascertains the reason for the existence of sundry debentures, taxation drops its veil of mystery and the bald facts are seen by all. It may be truly said that most of our indebtedness can be traced back to a certain period before the war, when real estate jumped sky-high and embryo metropolis existed everywhere. Since that time tax sheets of almost every town have shown a regularity consistent with that of a ouija board, but in the main the tendency has been downward, and generally speaking this reduction has been justified.

We all welcome it, and no doubt the decision of Didsbury's Town Council this week to make a cut of five mills will be generally approved.

Small though it may be, it is a step taken in the right direction, and wholly consistent with a principle adopted by other towns.

It should not be lost sight of, however, that the reduction may and possibly will lessen activity in the building of sidewalks and im-

provements to roads. Our school with its demand of 80 mills, and with ten mills for debentures, leaves but 20 for general expenditure, a margin which as time goes on may be insufficient to meet current expenditure.

Sufficient unto the day, however. A reduction is a material factor in our town life, and that it will be satisfactory to the general body of ratepayers goes without saying.

A. O. Miller formerly of Oyen, visited friends in town on Monday.

Prominent Didsbury golfers in the persons of Jas. McDougall, Richard and Keith Miller, and Melvin Huget are competing this week in the Innisfail golf tournament. Jas. McDougall will also represent the district in the Herald golf competition held at Calgary the end of the month.

Mrs. J. Reed and family are spending a few weeks at Banff.

After spending a few months at his farm at Appledale, B. C., Frank Honeysett returned here on Monday and resumed his old position at the C.P.R. depot. Mrs. Honeysett and daughter Ivy will remain at the farm for awhile longer.

Miss Hyde is visiting friends in Vancouver for a week or two.

Miss Leota and Kathleen Kalbfleisch of Three Hills are visiting this week with Mrs. J. V. Berscht.

A beauty parlor will be opened in the Leuzler Block on Monday, August 1st, by Helen K. Fooks, formerly of Calgary.

Mrs. Phillips of Vancouver is visiting with her sister, Mrs. J. R. Miller.

Miss Pearl Farrell of Edmonton has been one of the number of guests at the home of Dr. and Mrs. Clarke during the past week.

Rev. and Mrs. McNutt, formerly of Didsbury, after visiting friends in the district, are now returning to their old home in Ireland, where in all probability, they will reside permanently.

Birth—On July 7th, to Mr. and Mrs. D. B. Bowlen of Didsbury, a daughter. —Oids Gazette

Brooker Bros. have purchased the residence belonging to John Metzgar, located opposite the telephone office.

Mrs. M. E. Patrequin of Chicago is visiting friends in the district.

Mrs. (Dr.) Evans with her two sons, Fred and Art, are having a vacation at Sylvan Lake. Elwood accompanied them in the car last week-end, returning and reaching home just before the storm broke Sunday night. He reports the road in good shape.

At a meeting of the Didsbury Town Council on Monday night, held to consider a tax rate for the year, it was decided to make a reduction of five mills. The new rate consequently will be 60 mills made up as follows:—Municipal 20 debentures 10, school 30. There will, in addition, be the usual tax of 2 1-2 mills imposed by the provincial government which applies to acreage only.

Mr. and Mrs. R. Barrett with their family left last Saturday by auto on a visit to friends at the coast and various points south of the line.

Didsbury Live Stock Pool shipped two cars of cattle on Monday to Calgary, and another on Wednesday.

Fred Moyle returned last Saturday from a visit to the east, in which he took in Toronto, New York and other points of importance, spending about ten days with friends at Paris, Brant County. Essex county, he states, had already started cutting fall wheat, and haying was general. Generally speaking, operations, however, were about a week later this year.

At a time when agriculture is coming into its own, and reasonable assurance being given of more equitable treatment in disposal of farm produce, it is a matter for regret to witness such old-timers as Dave Irwin, Dan Dippel, Geo. Dippell and A. O. Fisher giving up such a promising future to take up the less lucrative one of the re-

moval of buildings. Just to gain the necessary experience, they are removing the bandstand this week from off the C.P.R. Park and taking it to the agricultural grounds where it will be put into shape for this year's fair. In this work they have the assistance of Mose Dippel, W. Morton, O. Klein, whilst the latter's two sons, W. and I. are helping with their tractor. This job being a temporary one, and no other work of a like nature in sight it is satisfactory to learn there is a possibility of these old friends of ours resuming their previous occupation, until at least fair time, when the exigency of the occasion may afford another opportunity. However, whether they continue in the business or not they are making a good job of the bandstand, and the fact that they are doing it gratis adds considerably to the value of their services.

A "Duco Devil-Blis" spraying outfit has recently been added to

the equipment of Adshead Garage. The apparatus does its work very efficiently and, compared to the old system, an enormous saving of time is effected. Compounds of various hues, to suit the taste of the customer, can be administered and the result is a finished car with the paint very evenly distributed and with an appearance almost equal to the factory product. This machine, we believe, is the only one so far in use north of Calgary, and its acquisition by the Adshead Garage will no doubt be greatly appreciated by car-owners in the district.

Wanted.

Good, fat horses, 1400 lbs up. Will pay highest market price. We also have some fresh milk cows for sale. Kendrick & Good.

Municipal Co-operative Hail Insurance

Saved the farmers of Alberta over \$3,250,000 in the last eight years, and is the only Hail Insurance provided at cost.

Out of every dollar of premium charged during the period mentioned, 84 1-8 cents was returned to the insured in losses, 7 7-8 cents paid all cost of administration, and eight cents was added to the Reserve Fund now amounting to \$770,000.00, which belongs to the farmers.

Why not insure your crops with insurance that gives protection from date application is received until Sept. 30th.

For full information see your Municipal Secretary.

WORLD HAPPENINGS
BRIEFLY TOLD

H.R.H. the Prince of Wales will visit Vancouver and Victoria after August 10.

The population of Edmonton, as shown by the official city census figures made public today, is 67,083, an increase of 1,920 over the Dominion Government totals of last year.

An increase in wages and adjustment of working rules is sought by Canadian National telegraph employees, who started negotiations with the management through the international union representatives.

The New York Herald-Tribune says that Colonel R. Rex Rennee, former officer of the Lafayette Escadrille and World War ace, announced that he would attempt a flight to Paris and return in 24 hours. The hop will be made in September, he said.

It is possible that Australia's 1931 exhibition may be of a British Empire character. There is a suggestion that the King may be invited to open it, but, as His Majesty is unlikely to go, the Prince of Wales will be invited to perform the ceremony.

Homestead entries for the first five months of the present year in the four western provinces total 2,261, as against 2,381 for the corresponding five months of last year. Saskatchewan heads the list with 1,038 entries, followed by Alberta with 913, Manitoba with 273, and British Columbia with 37.

Rt. Hon. Ramsay MacDonald, leader of the Labor party in the United Kingdom, will not accompany Hon. Charles Dunning and party to the Hudson Bay this summer. Mr. Dunning is as yet unable to fix a time for his trip. He has not yet heard when Frederick Palmer, the port engineer, will reach the capital.

Twenty-five thousand peonies, sent by the Canadian Government for free distribution in England, arrived in Liverpool on the liner, Albertic. A staff of girls sent by a London florist immediately began the task of transferring bunches of flowers to 2,500 cardboard boxes for despatch to members and officials of public bodies all over the country.

Sorting Mail In Air

British Air Ministry is Making Test of Special Plane

An aeroplane specially designed for the rapid transport of mails is being tested by the Air Ministry. It will carry, besides the pilot and an engineer, a postal sorter, who will continue his work while flying at 100 miles an hour.

This latest type of mail aeroplane is fitted with parachutes, and instead of the usual tail skid has a steerable tail wheel, with powerful brakes to help pull the machine up quickly on alighting at small aerodromes. A central engine room contains two Napier engines, each of 500 h.p.

Nothing as Good for Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

British Expedition To B.C.

Will Collect Rare Flower Seeds in Mount Garibaldi District

The Royal Horticultural Society of Great Britain, with its history of over one hundred years of good work, has decided to finance an expedition to the Mount Garibaldi District of British Columbia for the purpose of collecting seeds from the numerous rare and beautiful flowers which revel in the higher slopes of these grand hills. J. C. Bennett, Lake Hill, alpine and rare plant specialist, is to organize and direct the expedition.

Corn cannot exist when it follows the Corn Remover is applied to them, because it goes to the root and kills the growth.

Canadian Is Appointed

Dr. B. T. Dickson, professor of botany at McGill University, Montreal, has been appointed by the Commonwealth Government as chief mycologist of the council of scientific and industrial research, Australia.

Layette for the New Baby

Clothes for the new baby may be made with a great saving of time and trouble, when using the pattern for this layette. Every garment required in the new baby's wardrobe is included. The first long dress of soft nainsook is made dainty with tucks, and a yoke with touches of embroidery. A second dress of the same material has tucks running into the shoulder, embroidery, and narrow lace trimming the neck and sleeves. A gertrude skirt buttoning on the shoulders is worn beneath the dress, and to provide extra warmth for cool days a narrow coat of soft wool with shaped top should be worn. A diaper band, shirt with kimono sleeves buttoning up the front, together with nightgown having extension buttoning from back onto front, completes this layette, which is cut in one size only. Dress requires 17½ yards of 36-inch material, nightgown 16½ yards, straight petticoat, 1½ yards, shirt ¾ yard, diaper band ½ yard. Price 20 cents.

Many styles having a smart appeal may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

Almost any one will take your advice, but one out of a hundred will generate faith enough to use it.

The important event, in many a man's life is an accident—the accident of birth.

About the only way to convince a contrary man that he is wrong is to agree with him.

Comets Baffle Astronomers

Laws That Govern These Bodies Are Still a Mystery

Comets are strange bodies that baffle even the minds of those behind the huge telescopes in the observatories. Travelling at a dizzy speed they rush toward the sun, travel around it, and then return to the distant spaces from which they emerged.

Edmund Halley, an English astronomer, began studying the orbits of comets, and in 1682 he calculated that the comet then visible would return in 1759. When in December of that year the comet did reappear, scientists realized that Halley had made an extremely important contribution to the study of comets, and this particular one was named after him.

With Halley's computations the study of comets was rendered infinitely more simple than it had been previous to his time. There still remains the question as to how these swift travellers begin their journeys and what their significance may be in a universe governed by inexorable laws. Scientists have yet to discover the unknown laws that govern these bodies, for they seem sometimes to flout those laws already known.

Wheat Pool Agency For South America

Western Canadian Wheat Pools Will Establish Selling Agency in the Argentine

W. J. Jackman has been appointed resident representative in the Argentine for the selling agency of the three Western Canadian wheat pools. He will leave for his new field of work early in September and will have his headquarters in Buenos Aires.

The appointment is the outcome of a scouting trip that Mr. Jackson made to South America last year for the purpose of inquiring into the general conditions of the wheat trade in that country. It has since been decided by the wheat pools to be permanently represented there and while the office will be of a somewhat experimental character it is intended to give it a thorough trial, in expectation of the two countries coming into fairly close relations as both producers and exporters of wheat.

Hubby (quite flourishingly) — Marriage is a lottery."

Wife—"What's that?"

Hubby—"And I won a prize."

When a man has real troubles he keeps them to himself.

Premier's Daughter Visits Canada

Airships Terminal Planned

\$350,000 To Be Spent On Equipment In South Africa

Plans concerning the projected mooring mast and ground equipment for an airship terminal in the Union of South Africa are almost completed. It is agreed that the airship service shall be controlled by the Union's railway administration and that approximately \$350,000 will be spent on the mast itself. It is understood this will be located near Cape Town. The Government committed itself to construction of a mast as the Union's contribution to an inter-Empire airship service.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Believed Oldest Inhabitant

Believed to have been the oldest inhabitant of Canada, Mrs. Margaret Thickfoot, of Salteaux Indian extraction, is dead at the Jackhead Indian Reserve near Lake Winnipeg at the age of 112. Until recently the squaw had full use of all her faculties. She was the widow of Chief Thickfoot, who before his death many years ago, played an important part in the Christianizing of the Salteaux Indians.

SUNDAY SCHOOL LESSON

JULY 24

DAVID AND GOLIATH

Golden Text: "Jehovah is the strength of my life; Of whom shall I be afraid?"—Psalm 27:1-5.

Lesson: 1 Samuel 17.

Devotional Reading: Psalm 27 1-5.

Explanations and Comments

1. The Philistine Peril and Goliath's Challenge, verses 1-11.—The armies of the Israelites and of the Philistines were encamped on opposite heights of the Valley of Elah. Every morning and evening for forty days a Philistine giant named Goliath had stood forth and challenged the Israelites to settle the matter by single combat, saying: "I defy the armies of Israel; give me a man that we may fight together. If he is able to fight with me, and kill me, then will we be your servants; but if I prevail against him, then shall ye be our servants and serve us." The Israelites were utterly dismayed. When they saw Goliath approaching, they fled.

"Goliath boasted of just the things in which men are prone to boast today. He had physical strength. His height was six cubits and a span. Athletics had done all they could for him, and he was a fine type of animal perfection. He had splendid military equipment—a helmet of brass, a coat of mail and a spear like a weaver's beam. Surely, if fine material equipment determines combats, the shepherd-lad from the hills of Bethlehem will be annihilated. And he enjoyed the enthusiastic confidence of the Philistines. He was his nation's pride and glory. He strode out amid their shouts, and the cheers were like iron in his blood. But all this counted for nothing, because God was against him.

"Men and nations may attain to a fine animalism, their warlike equipment may satisfy the most exacting standard, and yet, with God against them, they shall be as structures woven out of mists, and they shall collapse at the touch of apparent weakness. The issue was not Goliath versus David, but Goliath versus God!"—J. H. Jowett.

Your Home Medicine Chest. — Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Canada's Water Power Wealth

Only One-tenth of Dominion Resources Now Used

Although development of Canada's hydro-electric energy last year brought the total now harnessed to 4,169,275 horse-power, this is only one-tenth of the Dominion's resources, says the Dominion Statistician. He adds that with an average of 820 kilowatt hours per person per year, Canada leads the world in the consumption of hydro-electric energy according to population. Switzerland is second with 700; Norway third with 493; and the United States fourth with 427. The United Kingdom is not yet in the running. New installations for industrial purposes are increasing in Canada at the rate of 20 per cent. per annum, compared with 12 per cent. in the United States. During the past 24 years the increased use of water power for industry has been 800 per cent., and in the United States 400 per cent.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER IV—Continued

Any neighbor would tell you that Dr. St. John had built this house when he got married, and if you had time to wait you might hear that the doctor would not have an office in his house because his young wife was not strong and the overflow of human misery from a doctor's office, even the coming and going, would be depressing to her. So the doctor had an office down town, where visiting patients sat in wicker chairs reading the selected magazines on the wicker table while they waited.

The doctor's wife had her own car, plenty of money, and all the time the day or night holds.

When Helmi had been with Miss Abbie three months the doctor came one day to call. It was not a professional call. Indeed, he, who advised in so many cases, now came looking for advice. He and Miss Abbie had known each other in Cannington, where they had lived on the same street, went to the same Epworth League, and were taught in the same stone school house on the hill.

The doctor sat in Miss Abbie's golden oak rocker and stated his case. "You have a young Finn girl with you, Abbie," he said.

Miss Abbie nodded; there was no denying it. At that moment Helmi was scrubbing the back verandah and singing at the top of her voice a song of her own country.

"She's a bright girl," continued the doctor, "and attractive." Miss Abbie smiled and nodded again. "But needs more teaching in English. You send her to night school, do you? Yes, well, here's my point. My wife needs more interest in life; she gets low spirited and upset, though I cannot find the cause. I think if you would ask her she might consider teaching your girl for an hour every second day or so. She admires the girl; indeed, made a sketch of her the day she dug your garden."

"She would do it," said Miss Abbie, apologetically. "I cannot keep work ahead of her. She wanted me to let her take in washing, at least enough to keep her busy, one morning. She does ours in such a little time, and she tells me she loves it. I wanted to hire a man to dig the garden but she coaxed me so that I gave in."

The doctor's face was wistful. "Don't spoil her, Abbie, let her work, work and salvation are closely related."

Across the street the perfect bungalow dozed in the bright sunshine. Its windows sparkled, its flowers turned their faces to the sun. It looked like an abode of happiness and contentment.

The doctor's wife came down the steps in a long silk motor coat and

veil. She had heard a horn pealing a signal and went around to the side of the house, where a closed car was slowing down. A man sprang out lightly and opened the door for her.

"She needs something, Abbie," the doctor said sadly. "I don't know women very well. Women are queer now. Abbie, they are so restless and discontented. I believe the women who had to sew and knit and work early and late were happier. Women of this day, having little to do, do nothing. I fear I am a dull old stick for Eva. She is fifteen years younger than I am, and I'm afraid it is too much."

Miss Abbie's lack of matrimonial experience kept her dumb, but she knew her old friend was suffering, and her face spoke her sympathy.

"Eva is the kindest hearted kid in the world, and she would love to help anyone," went on the doctor. "Will you come over tomorrow—she's out now—and ask her."

The first day Helmi went across the road for her lesson she spent an unusual time over her toilet. Her face shone from soap and water, her hair was tortured into crocheted curls, and as a final preparation she tightened her corsets until breathing became difficult. She had noticed the extreme slenderness of the dainty person who went in and out of the doctor's house, and had grown critical of her own ample form.

The doctor's wife received her in the sun-room, whose magnificence completely overpowered Helmi. The sun came in through curtains of yellow silk, falling in pools of light on the green and white tiled floor. The tables were of wicker, with pockets of silk from which gaily covered books and magazines protruded. A black dish had gorgeous birds perched on its rim, apparently just going to slake their thirst from the water below, on whose surface wax water-lilies floated. Ferns with trailing fronds of green lace hung from the low ceiling, and birds in gold cages turned the air into a musical jingle.

Helmi stood at the door transfixed with the beauty of it all.

"Come in, pretty thing," sang the doctor's wife in a chanting voice. She was lying on a chintz-covered lounge with a box of chocolates on a low stand beside her. "Come in and let me look at you."

Though Helmi did not know the words, she knew she was being made welcome. She glided in with the peculiar walk she had when she was frightened, arriving as noiselessly at the couch as if she had come on runners.

"Creamy skin, green brown eyes and fiery gold hair—you should do well in this land of opportunity."

"Yes, Ma'am," agreed Helmi.

"No, don't say that," Mrs. St. John was sitting up now, making a pretty picture with her flushed cheeks and ruffled hair. "Say, 'Yes, Mrs. St. John.' 'Yes, Ma'am' is gone forever with the hair-wreaths and petticoats and lots of other things I could mention. Say 'Yes, Mrs. St. John.'"

Helmi repeated the words correctly. The lesson lasted an hour, coinciding exactly with the duration of the chocolates, and Helmi was invited to come every Tuesday.

To Helmi there seemed to open a new world, rapturous, rainbow hued and golden—something she had dreamed about. The subtle perfume of the sun room, the air of indulgence and luxury, of freedom from care or responsibility, the muffled sounds in the house, as if every one walked on carpets of plush—all this seemed a part of her dream.

When she came out into the sun shine and ran across the road Helmi, for the first time, was able to think in English, and the words that she said were, "Some class."

CHAPTER V.

Young Methodist Church, though not set on a hill, was determined that it would not be hidden in spite of that geographical handicap, and so resorted to the wholly worldly but nevertheless effective method of advertising. A black and gold signboard on the corner of Broadway and Balmoral acquainted the wayfarer with several facts in the hope of interest-

WILSON'S

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores—10c and 25c per package.

ing that fleckle person in his own welfare. It told the name of the pastor, the subject of his sermon, the name of the choir-leader, the soloist for next Sunday, the deaconess, the president of the Ladies' Aid Society, and in larger and still more golden type it proclaimed that this was the Strangers' Church. The stranger naturally looked around in an endeavor to locate his property, and if he would follow the indication of the gold hand which pointed up Broadway he would find it, sure enough. There it stood, solidly brick, an abbreviated tower and empty belfry, deep set windows, a few straggling vines holding to a network of wire that swayed in the winds and kept the vines in constant remembrance of the uncertainty of life!

Over the side door one evening, though it was yet early, a light burned, pale amber and faint because of the daylight. At first it looked as if the sexton had forgotten to put it out from the night before, but members, adherents and frequenters knew that it had a meaning. It simply meant that something was in progress—the house was in session. The sexton, a burdened man, with a lame leg and a short temper, who was rarely seen without a duster in his hand, was arranging and dusting the seats in the Tower Room. The Girl's Club was holding a supper meeting.

(To Be Continued.)

Millions of "Dead" Letters

Yearly Report Shows Necessity of Being Careful About Address

It will come as a surprise to most people, and as a shock to many, to learn from the Canadian Post Office Department that nearly 2,000,000 "dead" letters were handled by this department during last year. More than 1,000 of these letters were registered—and had a monetary value amounting to thousands of dollars. In fact, the sum of \$19,450 was recovered by Postal authorities from this large quantity of undelivered mail. The number of such letters is far too great. While it will never be possible, perhaps, to completely eliminate all "dead" letters, they could be reduced to a negligible number through a little carelessness by the writers.

It is sheer carelessness on the part of the writer in addressing the envelope that is the primary reason for the majority of the 2,000,000 "deads." What a world of tragedy may lie behind this huge quantity of undelivered mail. Think of it. Two million persons in the world wondering why two million others "never replied to the letter I wrote." Hopes may have been blighted, hearts broken, fortunes lost. Who can tell how many tender outpourings of feminine hearts have been revealed to ruthless official searching in "dead" letters for a return address. The moral is clear: Make sure the address on all letters is correct, and heed the admonition of the Post Office Department to write a return address on the outside of all envelopes, you will be doing the officials a good turn and, incidentally, yourself.

Has Stringless Violin

Canon F. W. Gilpin rector of the parish of Paulkbourne, England, has a hobby—unique musical instruments. He has about 600 specimens from all corners of the earth. Oddest of all, perhaps, is a stringless violin. Another surprising musical instrument is what appears to be a large family Bible; when opened it shows a keyboard and a small set of pipes. On this organ the canon has played at mission services.

An enamel for wood and metal has been made from a solution developed from cotton, which is hard, durable and waterproof.

Canada's New Carillon

Is Considered Finest and Most Complete Ever Constructed

Canada's splendid new carillon, installed in the Memorial Tower of the Parliament Buildings in Ottawa, seems to have met the highest anticipations of the Government and added another laurel leaf to the crown earned by the famous foundry at Croydon, England. Both the thousands who heard the bells peal forth their joyous message at noon of Jubilee Day, and the millions to whom it came by radio throughout the length and breadth of the Dominion, were enthralled by the rich quality of the sound and amazed at the ability of the bells to reproduce every kind of music. This had been demonstrated in England at the recital given by M. Lefevre, the distinguished Belgian carillonneur, at the foundry. An account printed at the time stated that no less than 1,200 people visited the Croydon works to see the Canadian carillon, described as the finest and most complete ever constructed in the home of bell-ringing.

Ottawa has indeed been favored in becoming the possessor of a carillon unrivalled at the present time, and that will remain a perennial fountain of joy and inspiration to the people of today and to generations yet unborn. In England it was generally admitted that this latest production of a craftsmanship unequalled by any other country of the world is an instrument of great majesty and beauty. The carillon is, indeed, the greatest in the world, ranging from a ten-ton Bourdon, tuned as closely as possible to that of Big Ben at Westminster, to a treble only twelve pounds in weight, 53 separate bells in all. The demonstration in England revealed its ability to reproduce all kinds of music, classical and popular.—St. Thomas Times-Journal.

Puddings For Desert

Two Recipes That Have Been Found Unusually Delicious

There is one thing in favor of puddings for dessert that makes the dish a frequent selection, and that is that the average simple pudding can be used for the little ones as well as the adult members of the family. Here are two recipes that have been found unusually delicious and yet are simple to prepare and economical:

Orange Bread-Pudding

1/2 cup Eagle Brand Condensed Milk.
2 cups hot water.
1 cup sifted soft bread crumbs.
2 egg yolks, slightly beaten.
1 tablespoon melted butter.
Juice of three oranges.
Grated rind of one orange.
1/2 teaspoon salt.

Add hot water to condensed milk, blend thoroughly, and bring to scalding point. Pour over bread crumbs; let stand until cool. Add egg yolks, salt, melted butter, orange juice and rind. Pour into a buttered pudding dish, set in a pan of hot water. Bake in a moderate oven about forty-five minutes. Cover with meringue of stiffly beaten egg whites and one-fourth cup sugar. Brown slightly in a moderate oven. Serve cold. If desired, the whole eggs may be added to pudding, the meringue omitted and the pudding served cold with cream.

Tapioca Cream Pudding

1/2 cup Eagle Brand Condensed Milk.
2 1/2 cups hot water.
4 tablespoons quick-cooking tapioca.
1/2 teaspoon salt.
2 eggs beaten separately.
1 tablespoon melted butter.
1 tablespoon vanilla or any preferred flavoring.

Dilute milk with hot water, blending well. Bring to scalding point in a double boiler. Stir in tapioca and cook about one-half hour. Add butter and salt to egg yolks. Pour over them gradually the hot tapioca, stirring constantly. Return to double boiler and cook three minutes longer. Pour slowly over the beaten egg whites, folding in gently; flavor and chill. Serve plain or with cream or fresh fruit sauce.

Vary cream tapioca pudding by arranging fresh or canned peaches, apricots, or sliced oranges in bottom of serving dish, pouring over the chilled tapioca cream.

Estevan Briquetting Plant

Five units of the Estevan Briquetting Plant turning out 750,000 tons of fuel annually is the objective of the new company which has taken over operations at Estevan, according to G. F. Sheehan, of Seattle, inventor of the process now being installed. One unit, turning out 20 tons an hour, for 24 hours of the day, will be in operation by December 1st, he said. E. A. Hartley, of Seattle, is president of the new company.

Minard's Liniment for warts and Pimples.

Little Helps For This Week

He that contemneth small things shall fall by little and little.—Eccles. xix. 1.

Despise not little sins; The gallant ship may sink Though only drop by drop The watery tide it drink.
—Richard Chenevix Trench.

The sins by which God's spirit is ordinarily grieved are the sins of small things,—laxities in keeping the temper, slight neglect of duty, lightness, sharpness of dealing. If it is your habit to walk with God in the humblest occupations of your day, it is very nearly certain that you will be filled with the Spirit always.
—Horace Bushnell.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands of Mothers Say of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hunt, Tanook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past twenty years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

A block of coal nine feet high and four feet square was recently shipped to Italy.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy. Mother Graves' Worm Exterminator.

Canada has 50 million poultry, with an annual production value of \$50,000,000.

Keep Minard's Liniment near at hand.

Colors of every tone and shade, numbering 1400, compiled from productions of dye makers, are displayed in an index recently issued.

UNIVERSITY OF MANITOBA WINNIPEG

Offers, among others, the following Courses:
Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A.; and B.Sc., including B.Sc. (Phar.), and M.Sc.
Through its FACULTY OF ENGINEERING AND ARCHITECTURE courses leading to the degrees of B.Sc. (C.E.), B.Sc. (E.E.), M.Sc., and B.Arch.
Through its FACULTY OF MEDICINE courses leading to the degree of M.D. and C.M.
Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.S.A. and B.Sc. (H.E.).
Through MANITOBA LAW SCHOOL, an affiliated institution, a course leading to the degree of LL.B.
For terms of admission, details of courses and other information, apply to
W. J. SPENCE, Registrar, University of Manitoba, Winnipeg.

THE NEW FRENCH REMEDY, No. 1
THERAPION
It is the best French Remedy, No. 1 for Blood & Skin Diseases. It is for Rheumatism, Gout, Gravel, etc. It is for all kinds of skin diseases, such as Eczema, Psoriasis, etc. It is for all kinds of internal diseases, such as Indigestion, etc. It is for all kinds of external diseases, such as Warts, etc. It is for all kinds of diseases, such as Cancer, etc. It is for all kinds of diseases, such as Syphilis, etc. It is for all kinds of diseases, such as Leprosy, etc. It is for all kinds of diseases, such as Tuberculosis, etc. It is for all kinds of diseases, such as Malaria, etc. It is for all kinds of diseases, such as Cholera, etc. It is for all kinds of diseases, such as Typhoid, etc. It is for all kinds of diseases, such as Diphtheria, etc. It is for all kinds of diseases, such as Scarlet fever, etc. It is for all kinds of diseases, such as FIFTH FORTNIGHTLY CROP REPORT

Issued by Department of Agriculture,
Government of Alberta,
Edmonton, July 16, 1927

Crops throughout the province have continued to make rapid growth during the past two weeks and conditions generally are regarded as very satisfactory, according to reports reaching the Department of Agriculture. Precipitation in most districts has been sufficient to put the soil in better condition in this regard than it has been at this season for a number of years, and only in very few low-lying fields has the abundance of moisture done any damage to the growing crop.

Early wheat is heading rapidly in many sections of the province. It is estimated that fully twenty-five per cent. of wheat is in head and heads are showing in many fields of oats and barley. Exceptionally heavy stands of all grains are reported throughout the province, crops having stood well under ideal moisture conditions.

Damage from hail over the province so far has not been heavy. Local storms in a number of districts have left their mark, but losses from this cause have not been of a wide-spread nature. Insect damage appears to be very slight this season. In some northern districts wireworms have injured the crop to a slight extent, but not sufficiently to cause a serious

reduction in the yield over the entire province.

In the southern and south-eastern sections of the province the crop continues to give excellent promise. Intermittent showers are carrying cereal crops and beets along well, and so far very little irrigation has been necessary. A splendid crop of alfalfa is reported from the first cutting, thirty to forty per cent. being already in the stack. A good yield of fall rye for hay is being cut and all hay crops are reported to be heavier than usual.

Reports are very encouraging from the Grande Prairie and Peace River districts. Crops have made rapid growth, a good deal of early wheat is in head and farmers generally are very optimistic as to the outlook for the season. In the northern and central sections of the province, summerfallowing is practically completed and a great deal of new land is being cleared and broken in readiness for the 1928 crop.

Mr. and Mrs. Wm. Waldron came up from Didsbury on Sunday to bring Mrs. Wrigglesworth back to see the remains of her wrecked home. There is literally not one stick left on another; her goods were scattered, some to the school yard. Sympathy is specially felt in this case.

Church Announcements EVANGELICAL NOTES.

Last Sunday evening service will be well and long remembered by everyone present. The opening exercises had just been completed and the sermon well begun when the severest thunderstorm of the season began to the tune of sharp lightning and a heavy downpour of rain lasting considerably over an hour. By effect of the storm the electric light system of the town was damaged and consequently the church lights went out in the middle of the sermon. The speaker however went on to finish the sermon after which several hymns were sung from memory in the dark and still the storm was raging, so that it was unfit for anybody to go out. Then without interruption the pastor introduced a praise and testimony meeting. In this the members took part freely, interspersing the testimony with song in a joyful manner.

continued until the storm was over. Like the saying concerning Moses of old who was "left in the dark when the light went out," we however enjoyed a happy and memorable service even in the dark.

KNOX and WESTCOTT

Sunday, July 24th. The minister is taking for his theme "The Gospel of Relaxation." A great physician who has made a study of the people of this north-west said that if we are to keep well, we must eat more fruit and take more rest. Every now and then Jesus would say to his disciples, "Come ye apart and rest awhile." The ability to relax is studied by the greatest workers today, and in Sunday's sermon you will find much that will be helpful to right living.

Community Hall. Services at 8 p.m. Rev. A. E. Hayes will be in charge.

WHEAT POOL NEWS BULLETIN

Steady progress is being made in the campaign for the signing of the Second Series of Wheat Pool contracts. Weather conditions have hindered the work of the canvassers to a considerable extent, nevertheless the contracts are coming into head office in a satisfactory manner. An encouraging feature is the number of new members who are joining the Wheat Pool. It is anticipated that over 500 new members will be signed up during July. Another feature of the drive

WE DELIVER TO ANY PART OF TOWN

W. D. SPENCE, manager.

is the larger acreages being signed up.

It is expected that the foundation for the Alberta Wheat Pool terminal elevator at Vancouver will be started next month. C. D. Howe, of wide reputation as an engineer, has been engaged to supervise the construction of the terminal. The elevator will be completed in time to handle the 1928 crop.

W. J. Jackman, member of the Board of Directors of the Alberta Wheat Pool, has been appointed special representative of the Cana-

dian Wheat Pool in Argentina. Mr. Jackman will leave in the early part of September for South America. Last year he made a special study of conditions there for the Pool. His knowledge of South America and his ability to speak the Spanish language fluently will be of considerable advantage to the Wheat Pool. A new director will have to be elected for the Edmonton district.

Camping trips into mountains west of Olds. Inexpensive. Write for information. Miss E. McMurry, Bearberry, via Olds.
